COURSE ACCESS IS FOR ONE YEAR PER COURSE

GETTING THE MOST FROM THE COURSE

You can progress through the course in your own time: for some courses/learners, this might take a matter of days – for others, it might take a matter of months. Either way, I recommend you consistently work through the sessions, coming back to them to review if necessary. And of course it's important that you take personal responsibility for your own learning and to make sure to progress through the course.

FOR ONCE: PLEASE DON'T SHARE!

It's unusual for me as a communications practitioner to be asking this – I'm usually keen to spread and share knowledge and information. But please don't share this material!

I've invested a great deal of time and resources in creating these courses. Charging for them is one of the ways that I earn a living. This income also helps me to continue to provide free content, advice and support for the sectors we work in.

So please don't share this content wider than up to 6 members of your team within your own organisation. If you're unsure what that means, please check with me anita@writing-services.co.uk.

In the highly unlikely event of any unauthorised distribution of this content or plagiarism, I will take legal advice, because this would have a serious impact on the sustainability of my business and the difference we want to make in the world.
